

# HONECORE<sup>TM</sup>

## Packaging

Paper Honeycomb is one of the most versatile paper products used in the packaging today. It can be engineered to provide the desired characteristics for a particular packaging application. Because of the way it is manufactured, the product can change from an extremely rigid material used for block and brace applications to a cushioning product that protects fragile items.

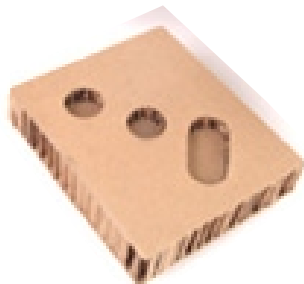

### Benefits of using HONECORE<sup>TM</sup>

- Recyclable
- Contains recycled fibers
- Very high compression strength
- Lightweight and thus very easy to handle
- Extremely versatile

### HONECORE<sup>TM</sup> packaging application

- Void Fill
- Surface protection
  - Cushioning
- Impact protection
  - Dunnage
- Blocking and bracing
